

Introducing American Bike & Trike

Specializing in Trike Conversions

Locally owned and operated, American Bike & Trike is bringing quality trike conversions to the community, for your American-Made Motorcycles. They also do sidecar installations.

Owner/operator Terry Evans did a lot of research on trike conversion kits, and was especially impressed with those offered by Hannigan Motorsports and CSC ~ California SideCar. He feels that you will agree that these are extraordinary machines.

He has chosen Rolling Art Custom Paint to do their paint work. Motor work is being done by John at MainStreet Motorcycles. With these established businesses which are well-recognized in their fields, ABT is building trikes which exemplify their slogan "Where Quality Meets the Road".

American Bike & Trike builds turnkey trikes from Indian and Harley-Davidson motorcycles. They currently have samples of their work on display at the Indian Motorcycles Tucson and

American

Bike & Trike

Chandler stores.

American Bike & Trike can & will build your trike based upon other motorcycle makes. Kits are also available for BMW, Honda, Kawasaki, Yamaha, etc. If you have a bike you want converted, they can definitely do it for you.

Terry's son Kyle is also part of the ABT Build Team. Along with joining his Dad in the shop, Kyle is currently studying at MMI ~ the Motorcycle Mechanics Institute. Terry's wife Roxane is the Office Manager.

ABT is preparing to take trade-ins and will also be offering used bikes for sale.

American Bike & Trike is located at 3272 S. 147th Place, Gilbert, AZ 85297. You can call them at 480-218-5822, email info@americanbikeandtrike.com, visit online at

www.americanbikeandtrike.com and/or follow them on Facebook at [/americanbikeandtrike](https://www.facebook.com/americanbikeandtrike)
