## More Than Your Ordinary Vapor Lounge

### *A New Approach to a Drink and a Smoke*

So many of us have fond memories of sitting at a watering hole with friends... many a night have been spent drinking and smoking and partying. That era has gone ~ for better or worse depending upon who you ask .... due to a combination of state regulations and health concerns. But at the same time, the social outlet was taken away as well. As the song goes .... Don't drink, don't smoke, what do you do?

A sober rider's options are limited ... sit in a pub where you have no desire to drink ... or tougher still ~ *want* to drink but are going through the steps of quitting. Plus, a cup of coffee at a tavern can be kinda rough stuff. The token coffee pot set aside for the designated drivers or for someone who's had too much to drink.... Oh, *yum*. You can go on a 'pie ride' for a slice at numerous eating establishments. And that's okay from time to time maybe. But it can get old quick. So, you were pretty much at a loss when looking for a place to just go and hang out for a bit. Until now.

Evapeology has established an innovative venue that is fast becoming the East Valley's destination for the growing number of bikers who have chosen the sober path. Or they are choosing to ride sober & then do their drinking once they get parked for the night. The Mesa Evapeology location, at 4210 East Baseline Road in Mesa has evolved into a Vaping Café ....

Evapeology's owner Charles is passionate about creating an alternative night out for riders who, for one reason or another, want a change from the traditional alcohol-based bar scene. But they still want that camaraderie and energy of sitting at a bar, listening to music, chatting with the barkeep and fellow patrons.

Evapeology's Vaping Café is way more than your ordinary vape lounge. There is now a barrista who can customize a coffee, tea, or soda to compliment your vaping 'juice'. Evapeology's Mesa location is becoming well-known enough that even non-smokers who don't vape are stopping in for a creative cup o' joe. It's Starbucks-style ~ without the crazy high prices and with lots more personality. There are big screen TVs, fooseball, free wifi, streaming radio, and arcade games like Donkey Kong.

Musical entertainment on Friday nights will be starting this month ~ mid-March. Now that our weather is warming, the weekly Ride Night will start back up. Watch our calendar for those details as they are released. Other theme nights, {like Super Mario Sunday} are in the works, so watch the Evapeology Mesa Facebook page for updates on that.

Iced or hot, drinks can be created with chocolate, caramel, fruit flavors, nut flavors ... too many options to list. If you're on the go, many items can be prepped as a 'To Go' version. While we were there we saw many different mixes being served. It was hard to keep up & write down. Here are some examples... Remember the 50-50 ice cream bar you enjoyed as a kid? That flavor can be recreated as a soda. Enjoy the health benefits of Matcha green tea ~ either iced or hot. You can get a nitro coffee. If you are new to this, it is cold-brewed iced coffee infused with nitrogen. It is under pressure and tapped from a keg, like beer. It serves up with a foamy head and smooth bitterness similar to Guinness. I indulged in a white chocolate raspberry coffee martini ... served in a martini glass with raw coarse sugar around the rim.

For the traditionalists, espresso or plain and simple coffee are also available. The only buzz you'll get here is the caffeinated kind ~ nothing Johnny Law can pop you for. And if you feel like you've had one too many... ask for decaf on your next round ☺

Are you setting up a ride? Step outside the box and shake up that traditional bar hop by including Evapeology Mesa's Vaping Café as one of your stops. Contact this store at 480-892-8273.

Coming in for Bike Week? Be sure to point your front wheel this way. This is a worry-free stop with no DUI checkpoints to sweat.

Visit this biker-friendly, alcohol-free destination and see for yourself. They're open daily from 8a-8pm. It is an ingenious revamp of the lounge atmosphere. Evapeology Vaping Café has a great vibe, with a pub-style atmosphere. It's like your favorite local bar ... with a rista on the end.

Tell 'em Bruce & Betsy sent ya!

nitro coffee martini

caramel macchiato

white chocolate raspberry coffee martini

Of course, you can also acquire all of your vaping needs at Evapeology ... In addition to offering basic products and standard brand names that you can find from most any vaping supplier; they also carry an exclusive 'Evapeology' branded line of accessories, batteries, atomizers, cases, & juices. With 65+ flavors, there is bound to be one there for you.

They also carry a line of CBD for vaping.

If you are trying to kick the tobacco habit but are unsure how to start, perhaps it's time for YOU to

'Drop the Paper and Get the Vapor!' Contact an Evapeology lounge near you. They can assist you with answers to questions, product suggestions, & more. Visit them online at [www.evapeology.com](http://www.evapeology.com), or on Facebook at /evapeology.

You can also follow them on Twitter at @evapeology.

For updates and specials text VAPE to 60259.
