

DAY WITH THE D-BACKS

On Saturday September 24, Evil Twin Custom Cycles hosted their annual 'Day With the Diamondbacks' fundraiser. The day included a pre-party at the shop, located at 2534 W. Broadway Rd in Mesa.

Everyone going to the game, and some who were not, had the opportunity to gather for free food and drinks, some social time, and a chance to win items from a bunch of some 60 raffle & giveaway items.

The group ride to Chase Field in Phoenix was uneventful... No incidents. Just like we all like it. Free motorcycle parking was also included with the ride. A nice bonus.

This is the 3rd year that Robert has hosted his Day with the Diamondbacks. In the 4 years prior to that he'd done similar benefits with the Phoenix

RoadRunners hockey team. In most years there has been a specific child who has been 'adopted' by this event, but this year's beneficiary was the Shriners Hospitals for Children.

Tickets to the game included seating in the exclusive 'Diamond Club', an area ideal for group parties at the stadium. Here you have the option of watching the game, or enjoying a party lounge atmosphere. So whether you are a huge baseball fan or just want to attend in support of Evil Twin's benefit cause, there is something here for most everyone.

This evening's contest was between the Diamondbacks and the San Francisco Giants. The outing was memorable in itself as the D-Backs earned the National League West title with their 15-2 win. Also memorable... At the bottom of the 7th inning,

the lights went out in the stadium, causing a half-hour delay-of-game. High winds blew through the area, and reports noted that some 1100 electricity customers were left in the dark for a time.

There were 346 who attended the Day With the D-Backs. The 50/50 winner collected \$305, making their day a bit more memorable as well. The donation made to the Shriners Hospitals for Children came in at more than \$2,230. It was a good time and Robert thanks all who came out to support this annual fundraiser. He also hopes that next year some local riders [for whom he did one of these benefits in the past] will not schedule their event up against his.
