

Sacred Grounds Rescue Ranch Raffle

Help Save These Abused and Neglected Animals and maybe win a Custom Harley Davidson

Sacred Grounds Rescue is a small 501c3 animal rescue just outside of Wikieup, AZ. They take in and care for abused and neglected animals such as horses, goats, sheep, llamas, burros, mules, cattle, and more. Once the animals are brought back to health, they find them loving and caring homes.

But in January of this year it all came crashing down and the Rescue itself was at risk of being closed.

Unlike the city, this area has no public water. After 14 years of hauling all their water needs, they lost their water source. ABC News 15's Lauren Vargas literally came to the Rescue, did a few video clips, aired them on January 14th, and the donations came rolling in. A miracle was happening in front of everyone's eyes. ABC's viewers raised just over \$20,000, plenty of money for a 300 or even a 400 foot well. But Murphy's Law, there was no water at 400 ft. In fact, they had to drill 788 feet. The good news is, there is now plenty of water! But although Brown Drilling, Kingman True Value, and Prosser Pump Service gave the rescue very good rates, it took up all the money they had. There is now water

to the surface, but not yet to the rescue and animals.

That's where this drawing for the Custom Harley Davidson comes in. When it's all done and 300 tickets are in the bowl, the Rescue will have enough to both plumb the Rescue and to build the Special Needs Kids the Rest Room Facility they deserve. To get in on this you just have to make a \$100 donation to the Rescue. They will assign you a ticket. You can get as many chances to win as you want.

The bike began as a 2002 Harley Davidson Softail. It was built and featured in *American Iron* magazine. It now is powered by a 121" TP Engineering engine with a Baker 5 speed RSD [right side drive] tranny. It cost \$43,000 to build and has less than 5000 miles on it. For more specs, go to gofundme.com/uftgducc and scroll down for the SGRR story and a list of all the details on the bike down to the tires.

The winning ticket will be drawn live, on the air, during the morning show of 100.1 FM radio on January 2nd 2017; or when all 300 tickets are sold, whichever comes first.

Winner must be at least 21 years old. At the time of picking up the prize, winner will have the choice of the Bike or a Check for a cash prize

of \$5,000.

Tickets are available in several locations including the radio station in Kingman AZ. Or you can go online to gofundme.com/uftgducc and simply scroll down and read all about it and more.

On a personal note, I will pray for each and every one of you that steps up to help this Rescue and all its animals. The Rescue is also always looking for volunteers. For more information just call 928-293-0322. Thank You and Keep the Faith.
